RANDOLPH-MACON WOMAN'S COLLEGE

HISTORY AND PURPOSE

The Randolph-Macon Board of Trustees was incorporated in 1830, and is empowered by its charter to establish and conduct educational institutions in any part of Virginia. Under this authority it controls Randolph-Macon College, for men, at Ashland, Va.; Randolph-Macon Academies for boys, at Bedford City and Front Royal; and Randolph-Macon Institute, for girls, at Danville, Va.

In 1891 the Board was entrusted with a large fund raised by subscription in the city of Lynchburg and asked to create a college for women that should offer advantages equal to those of the best colleges for men in Virginia. The purpose of the founders was expressed in the following statement:

"We wish to establish in Virginia a college where our young women may obtain an education equal to that given in our best colleges for young men, and under environments in harmony with the highest ideals of womanhood; where the dignity and strength of fully-developed faculties and the charm of the highest literary culture may be acquired by our daughters without loss to woman's crowning glory—her gentleness and grace."

The desire thus expressed has been realized beyond their most sanguine expectations. The highest standards have been maintained, and for years past the attendance has been limited only by the capacity of the dormitories. The undertaking is fully past the experimental stage, and the College is now generally recognized as one of the six largest high-grade colleges for women in the United States.

The Trustees have specially instructed the President to conduct the College on a non-sectarian plan, and students of all denominations are welcomed.

LOCATION

Randolph-Macon Woman's College is situated in the suburbs of Lynchburg. Electric cars pass the College gates at frequent inter-

vals, and give easy access to all parts of the city. The campus, originally consisting of twenty acres and now increased to almost sixty, extends from Rivermont Avenue to the bluffs overlooking the James River. It is noted for its great natural beauty. Diversified with hills and dales and winding walks, and adorned with ornamental shrubs and flowers as well as with native vines and forest trees, it affords ample opportunity for healthful recreation and outdoor life. In the distance rise the Peaks of Otter, and the presence, in the vicinity, of many lesser spurs of the Blue Ridge mountains adds to the attractiveness of the landscape. The natural drainage of the campus is perfect, the sanitary arrangements are modern, and all the conditions of health which characterize this famous Piedmont Region of Virginia are found united here. Increased vigor and healthful physical development usually accompany the intellectual advancement of students.

The U. S. Weather Bureau has an office in Lynchburg, where official records have been kept for thirty-seven years.

They show for the school months:

Mean temperature in September	69°
Mean temperature in October	58°
Mean temperature in November	47°
Mean temperature in December	40°
Mean temperature in January	37°
Mean temperature in February	39°
Mean temperature in March	46°
Mean temperature in April	56°
Mean temperature in May	66°
Mean temperature in June	74°

The lowest temperature recorded was six degrees below zero for a single day in the thirty-seven years.

THE RELIGIOUS LIFE OF THE COLLEGE

The daily exercises of the College are opened with religious services conducted by the members of the faculty. In addition to the Bible classes given as part of the regular College curriculum and the courses offered by the Young Women's Christian Association, several of the professors conduct volunteer Bible classes on Sunday morning in the College chapel. Many students also attend the city Sunday Schools, and all are encouraged to attend the church of their choice at eleven o'clock.

Vesper services, conducted by the resident pastors of Lynchburg and by visiting ministers, are held in the College chapel every Sunday evening, and are attended by the entire College community. The magnificent pipe organ adds greatly to the attractiveness of the daily morning exercises and the Vesper services.

GOVERNMENT

The government of the College corresponds to the character of the students expected. The requirements are only such as are necessary to the comfort and success of students, and appeal is made to their sense of propriety and right. Vexatious and needless restrictions are dispensed with. Ladylike conduct is expected of all, and confidence reposed in students is one of the educative forces of the College. Should any student persistently fail to respond to this expectation, she must be withdrawn as unprepared for college responsibilities. The preservation of order in the buildings and matters of college etiquette are largely left to the "Student Committee," and self-government has been gradually extended in other lines as results have justified such action, with results highly satisfactory to officers and students.

Young ladies boarding in the College will be treated as daughters of equal maturity in a well-regulated Christian family. It will, however, be borne in mind that they are gathered here for nine months for a serious purpose, and the regulations of the College will be such as to protect them from interruption or distraction.

MEDICAL CARE

Believing that careful, skilled supervision of sanitary arrangements and daily medical attention will greatly conduce to the health of students, the Board has engaged a physician of repute and experience to take charge of these matters. He is present each morning to be consulted by any student who may be indisposed, to attend to all cases of sickness in the College, and to supervise the sanitary arrangements of the institution. This valuable service is provided by the College without additional cost to the student.

BUILDINGS AND EQUIPMENT

SMITH HALL

Smith Hall, named in 1911 at the unanimous request of the student body in honor of Dr. W. W. Smith, the first president and founder of the College, occupies a commanding eminence facing Rivermont Avenue on the south and west, and overlooking the valley of the James and the noble range of the Blue Ridge on the north and west. This is the original college building, and, together with its annexes and additions, provides for the administrative offices, parlors, society halls, class and lecture rooms, Art Studio, Music Rooms, Psychological and Physical laboratories and lecture rooms, dining-hall, and dormitories for about 250 students. The building was commenced in 1892, and completed in its present form in 1899. It is a model college home, and with its minarets, towers, dormer windows, ivy-clad walls, and wistaria-covered porches, presents a chaste and attractive style of college architecture.

SCIENCE HALL

Science Hall, erected in 1906, is situated to the east of Smith Hall, and is connected to it by the main corridor. The first three floors are devoted to the laboratories and classrooms of the departments of Chemistry and Biology, and the fourth is occupied by the college museum. For the erection of the building Mr. Andrew Carnegie contributed \$20,000, and in compliance with his condition friends of the College raised an additional \$20,000 for its maintenance.

THE JONES MEMORIAL LIBRARY

The Jones Memorial Library, a companion building to Science Hall, occupies a similar situation to the west of Smith Hall. This building, erected in 1907, was made possible through the generosity of Mr. and Mrs. George M. Jones, of Lynchburg. It is a memorial to their deceased daughters, Georgia Lee and Lillie Fannie Jones. It is equipped with modern library furniture, and has shelf room for about 50,000 volumes. At present, the ground floor is used for class and lecture rooms of the department of English.

EAST AND WEST HALLS

East and West Halls were built respectively in 1903 and 1906, and are each complete with its own parlor, reception room, matron's quarters, infirmary, dining-room, pantry, cold storage, and kitchen. Each furnishes accommodations for about 100 young ladies, and is connected with the other buildings mentioned above by the main corridor, forming a complete frontage of over 700 feet.

NEW HALL

New Hall, a companion building in structure, size, and equipment to East and West, was erected in 1909, and with the Observatory forms the western side of the quadrangle.

GYMNASIUM

The Gymnasium, erected in 1909 at a cost of \$20,000, is located on the western slope of the beautiful ravine extending through the rear of the campus. It is a two-story building of modern fire-proof construction, and contains on the first floor a large drill hall 100 by 50 feet, with a gallery and running track; a trophy and rest room, and a director's office. The lower floor is equipped with sixteen marble showers with hot and cold water connections, thirty-two dressing rooms, and five hundred steel lockers. At one end of this floor is a splendid white tile swimming pool, 20 by 40 feet, with a graduated depth of 4 to 6 feet. A patent overflow, especially designed for sanitation of the pool, carries off continually the surface water. In the basement are the drying rooms, and special pumps and engines for changing and heating the water in the pool and baths. The Gymnasium is well furnished with the best apparatus for physical development, such as wands, dumb-bells, Indian clubs, balance ladders, German horse, Swedish box, boom, stall bars, ropes, flying rings, etc.

PRESIDENT'S HOUSE

The President's House, completed in the spring of 1915, is a modern, two-story brick residence with red tile roof. It is located at 2460 Rivermont Avenue, and commands in the rear a magnificent view of the college campus and of the Blue Ridge.

ATHLETIC GROUNDS

In direct connection with the gymnasium and conveniently located are spacious grounds for the outdoor recreations of the students. Four clay tennis-courts are kept in constant use during the fall and spring, while the basket-ball court with its bleachers is the scene of many a hotly contested game. The athletic field proper is 250 by 100 feet, containing a cinder running track 75 yards in length, a jumping pit, a vaulting bar, facilities, and room for all field sports.

THE WINFREE OBSERVATORY

The Winfree Observatory is situated near the front gate of the campus, and contains an excellent equatorial telescope, the gift of the late Major C. V. Winfree.

THE CENTRAL HEATING LIGHT AND POWER PLANT

The Central Heating Light and Power Plant is located on the hillside in the rear of Smith Hall, and furnishes power for the Laundry and Ice Plant, and heat for all the buildings on the campus, thus greatly reducing the danger from fire and the annoyance from smoke and coal dust in the several college buildings and dormitories. The Ice Plant, with a daily capacity of 2,000 pounds, is located in this building.

During the summer of 1915, an Electric Light and Power Plant was installed, in connection with the Central Heating Plant, and supplies all of the college buildings and laboratories with electric current sufficient for all needs.

LAUNDRY

The College Laundry is a two-story building, located near the heating plant, and gives employment to more than 60 day laborers.

WATER SUPPLY

The College is supplied with water from the Lynchburg municipal reservoir located twenty-three miles away in the mountains. As a further precaution the College has recently installed at considerable expense a filter plant, which insures an abundant supply of pure water for all college purposes.

FRATERNITY LODGES

On a romantic pathway, leading past the athletic field and gymnasium, are some dozen cottages, which, with their wide verandas and cozy parlors, furnish attractive meeting places for the several fraternities and secret societies of the college.

All college buildings and dormitories are constructed of dark red brick and are covered with slate roofing. They are equipped with patent fire-extinguishers and outside fire-escapes. Other buildings on the campus are the modern residences occupied by the Dean and the College Treasurer.

LIBRARY

The library contains at present more than 15,000 volumes, admirably selected and well adapted for the needs of the several departments of the College. It is in charge of a trained librarian and several assistants. The Dewey system of classification has been adopted, and the books are catalogued on cards by author, title, and subject-matter, in accordance with the most approved library methods. The reading room subscribes to several daily papers, most of the important weekly and monthly periodicals, a number of American and foreign reviews, and many technical journals. It also receives gratuitously a number of religious and secular papers, as well as many college publications. Both the library and reading room are open from nine in the morning until ten-thirty in the evening. Students have direct access to the shelves, and there is abundant opportunity for reference work in the library itself, and in the departmental libraries, which are under the immediate supervision of the several professors. The College expends about \$2,000 annually for the purchase of new books. It is very desirable that the library should be endowed with a permanent fund for maintenance and the purchase of new books.

LABORATORIES

The Department of Biology occupies rooms on the first, third, and fourth floors of Science Hall. There are ten rooms, including a general lecture room, four laboratories, library, office, dark-room,

storeroom, and vivarium. The equipment comprises over seventy-five compound microscopes, microtomes, paraffin and sterilizing ovens, incubators, a stereopticon, an Edinger projection apparatus, physiological apparatus, charts, Ziegler embryological models, Ziegler and Auzoux anatomical models, and several thousand illustrative specimens. Over seventeen hundred dollars are expended yearly for supplies and new equipment.

The Department of Chemistry occupies the first two floors, about 6,400 square feet, of Science Hall. Here are located five laboratories, a lecture-room, a storeroom, and professor's office. The permanent equipment represents an expenditure of about five thousand dollars; and approximately two thousand dollars are expended annually for supplies.

The Department of Physics is located on the lower floor of the Annex of Smith Hall, and consists of a modern lecture-room with 110 seats arranged in semicircular tiers, a general laboratory-room, two rooms for advanced work in electricity and optics, and a workshop. The floor space occupied is about 3,500 square feet. The equipment consists of an extensive supply of classroom demonstration apparatus, besides an ample supply for the laboratory work of first, second, and third year students. The laboratory is fully supplied with water, gas, and electricity. Alternating and direct currents are obtained from the city's electric mains, and from the Department's dynamos, storage batteries, and step-up and step-down transformers. From a distributing board current is sent to all points of the laboratory. A projection lantern, X-ray apparatus, Crookes tubes, electric vacuum and compress pump, standard Weston voltmeters, ammeters, and wattmeters, electro-dynamometer, potentiometer, standard resistances, Clark and Weston cells, decade and box bridges, Rowland concave grating, and spectrometers are included in the supply of high-class apparatus. A wireless telegraph outfit is in operation. About eight hundred dollars is expended annually for supplies and equipment.

The Psychological Laboratory, dating from 1893, was one of the first established in this country. The equipment is large and well selected, including all the necessary materials and apparatus for qualitative analysis of sensations as well as the more elaborate apparatus for quantitative analysis. The laboratory consists of nine rooms, given exclusively to its use, two of these being dark-rooms,

fitted for experiments in after-images and other experiments in light. Motive power for the various apparatus needing it is furnished by five electric motors. There is a departmental library of several hundred volumes in general and physiological psychology and on the applications of psychology to the interests of practical life.

MUSEUM

The fourth floor of Science Hall is utilized for the display of material illustrating mineralogy, geology, archæology, ethnology, conchology, and comparative anatomy. The specimens, which embrace several thousand titles, were carefully selected with a view to their specific value as typical illustrations. This collection represents a permanent investment of about ten thousand dollars. It is judiciously increased from time to time.

ENDOWMENT AND AID FUNDS

The endowment of the College enables it to secure and retain professors of high ability and scholarship. There are also loan funds, scholarships, and other aids to assist capable students of limited means to secure the advantages of the College.

Dr. Samuel Rolfe Millar has established a perpetual scholarship in honor of his mother, a relative of John Randolph. Applicants from Warren County, Virginia, are to be first considered for this assistance.

The Norfolk College Alumnae and their Saunders Memorial Chapter have given \$1,500 as a memorial fund in honor of the late Rev. R. M. Saunders, the interest of which sum is given annually to some student selected by the donors.

The Board of Trustees has established three scholarships which carry free tuition for one year and are annually awarded by the Faculty to the three students making the highest grades respectively in the Freshman, Sophomore, and Junior classes.

LECTURES AND CONCERTS

It is the policy of the College to invite from time to time distinguished speakers, lecturers, and artists to appear on the college platform. Occasionally, also, members of the Faculty deliver pub-

lic addresses on topics of timely interest. During the last twelve months the following lectures and concerts have been given in the college chapel:

PROFESSOR B. W. ARNOLD, JR., PH. D.

"The Earl of Beaconsfield"

ALFRED NOYES

Lecture and Readings from his own Poems

PROFESSOR W. P. MUSTARD, PH. D.

Collegiate Professor of Latin, Johns Hopkins University

"Roman Buildings in Southern France"

PROFESSOR R. A. MILLIKAN, PH. D.

Professor of Physics, University of Chicago

"The New Physics"

RUTH DEYO

Piano Recital

AGNES REPPLIER

"The Courageous Reader"

PROFESSOR W. S. FRANKLIN, SC. D.

Professor of Physics, Lehigh University

"Bill's School and Mine"

"Fluid Motions" (Illustrated)

HON. P. P. CLAXTON

Commissioner of Education, Washington, D. C.

"The World War and Peace"

PROFESSOR JOHN A. LOMAX

Professor of English, University of Texas

"Cowboy Songs of the Mexican Border"

REV. HUGH BLACK, D. D.

Union Theological Seminary, New York

"Robert Burns"

HON. JOHN BARRETT

Washington, D. C.

"Pan-Americanism"

Through the coöperation of friends in the city, students and faculty have also had the privilege of hearing Frieda Hempl in a song recital, and Fritz Kreisler in a violin recital.

STUDENT ORGANIZATIONS

THE YOUNG WOMEN'S CHRISTIAN ASSOCIATION

The Young Women's Christian Association is a vital factor in the religious life of the college community. In addition to conducting weekly meetings for prayer and religious instruction, it promotes a healthy and intelligent interest in social and moral problems and in the work of missions at home and abroad, and successfully maintains a number of Bible and mission study classes under the direction of the faculty and advanced students. In connection with the various religious and philanthropical bodies of the city, it offers to a limited extent an opportunity for engaging in practical religious work. It maintains an exchange committee, and has its headquarters in an attractively furnished office on the main corridor.

LITERARY SOCIETIES

Two literary societies are conducted with enthusiasm and success. They furnish important culture to their members, and constitute an interesting feature of College life.

STUDENT PUBLICATIONS

The Tattler is published monthly during the school year by a Board of Editors elected from the Senior and Junior classes.

The Helianthus, edited by the Senior and Junior classes, is the college annual, and represents an illustrated record of the college activities of the year.

The Sun Dial is published weekly by the Student Committee, and gives news items of interest to the college community.

ATHLETIC ASSOCIATION

The Athletic Association has general charge of all interclass athletic contests. All students are eligible to membership. Supervision of the athletics is in the hands of a board of control, composed of the Gymnasium Director and Instructor and of representatives of the student body.

DRAMATIC CLUB

A dramatic club has been organized for the study of the drama and for the purpose of presenting at least one public dramatic representation during the college year.

BUREAU OF APPOINTMENTS

The College, through a committee of the faculty, assists such graduates as wish to teach in finding suitable positions. This service is rendered without charge except for a registration fee of one dollar, which is charged to help cover office expenses. Former students and graduates who wish further information should address The Bureau of Appointments.

EXAMINATIONS

There are two examinations, conducted in writing, one at the close of the half-session in January, the other at the close of the session in June. A student who fails to pass an approved examination loses her right to advance to a higher course. Students are required to attend the examinations of their classes; and whenever, for any cause, a special examination is asked for and granted, the student must pay a special fee of \$5.

REPORTS

A report of the standing of each student is made to her parent or guardian at the end of every quarter during the session, and such special remarks will be appended as each case may suggest.

EXPENSES FOR HALF-SESSION

I. For Literary Courses—

Matriculation and Library.....	\$ 10.00
Tuition in literary courses and gymnastics.....	50.00
Board, including room, lights, laundry, and medical attendance	115.00
Use of Gymnasium.....	5.00
	\$180.00

II. For Music—

	<i>Half Course</i>	<i>Full Course</i>
<i>Piano</i>	\$20.00	\$37.50
Use of Piano one period (50 minutes) daily.....	3.00
Use of Piano two periods daily.....		5.00
<i>Violin</i>		37.50
Use of room for violin practice two periods daily.....		5.00
<i>Vocal</i>		37.50
Use of room for vocal practice, one period.....		3.00
Use of room for vocal practice, two periods.....		5.00
<i>Theory: Introductory Course</i>		5.00

III. For Art (according to advancement)—

1. Regular course in studio (10 hours per week).....	27.00
2. Double course in studio (20 hours per week).....	45.00

IV. Special Physical Training—

Fencing, five in class, each.....	5.00
Swimming, with use of swimming pool twice a week.....	5.00
Medical work; private lessons.....	32.50
Medical work; four in class.....	10.00

V. Laboratory Fees—

Students taking laboratory courses in Chemistry 1, or in Biology, Mineralogy, or Physics, pay a laboratory fee of \$5 for material and use of apparatus. For advanced elective courses in Analytical Chemistry the laboratory fee is \$10. The laboratory fee in Psychology is \$2.50. In Geology, \$1.

TERMS OF PAYMENT.—Ten dollars when room is reserved. This amount is credited on account when the student enters. It will not be refunded unless the application is cancelled prior to July 1st, or unless the preparation is found insufficient. One hundred and seventy dollars on entrance. Dues for special courses are payable November 1st. All dues for second term are payable February 1, 1917.

A rebate of ten per cent. of the *tuition* fees will be allowed any student whose sister or brother is also attending any of the schools of the Randolph-Macon System.

The proportionate part of board alone will be refunded when students leave by advice of our college physician. Should a student withdraw at our instance, the proportionate part of all fees will be refunded. In no other case will any reimbursement be made.

SUMMARY

From the above it will be seen that the cost of the courses most usually taken is as follows:

I. For students taking the regular literary course—

Tuition, Matriculation, and Library Fee.....	\$ 60.00
Board	115.00
Use of Gymnasium	5.00
<hr/>	
Total for half-session.....	\$180.00

II. For students taking three or four literary subjects
and course in Music—

Literary course, with board, etc., as above.....	\$180.00
Music	37.50
Use of Piano two periods daily.....	5.00
<hr/>	
Total for half-session.....	\$222.50

III. For students specializing in Art—

Literary course, with board, etc., as above.....	\$180.00
Art, double time.....	45.00
<hr/>	
Total for half-session.....	\$225.00

To these charges add laboratory fee, if student takes a science having laboratory work, and the fee for swimming lessons and use of natatorium if desired.

Any student who fails to return promptly at the close of any holiday will be required to stand a special examination on the recitations missed, and a fee of \$2 will be charged for giving these examinations, in each subject.

FURNITURE.—The College supplies the students' rooms with bedstead, bureau, wardrobe, washstand, chairs, mattresses, pillows, and crockery. Each student should bring with her sheets, blankets, and counterpanes for single bed; pillow cases (size 32 x 20 inches),

towels, and hot-water bottle; also one dozen napkins, marked napkin-ring, and any other articles of use or ornament desired for her room, such as knife, fork and spoon; pictures, etc.

LAUNDRY.—Each student is entitled to the washing of *plain* pieces amounting to \$4.60 per month, free of charge, in the college laundry. Students can have extra pieces washed by paying for them at college laundry rates, which are 30 per cent. lower than those charged by Lynchburg city laundries.

No article will be received for the laundry which is not plainly and indelibly marked.

GUESTS

Patrons and other friends of the College are always welcome to its hospitality. However, as all visitors are guests of the College, and not of individuals, a student who wishes to have a friend entertained must first consult with the head of her hall in order to ascertain whether or not a guest room will be available at the time desired. Students will not be permitted to lodge guests in their rooms. Any student who arranges to have a guest remain longer than three days will be charged for such entertainment.

REQUIREMENTS FOR ADMISSION

I. FRESHMEN.—For admission to the Freshman Class the applicant must be at least sixteen years of age at next birthday, and must show preparation, by examination or certificate, amounting to fifteen units. It is the policy of the institution to admit no students except those who have completed a four year high school course or its equivalent. A unit is considered as representing not less than one year's work in a standard high school, five recitations weekly, and the total in each subject must cover satisfactorily the work called for in the "Definition of Requirements" given below. Of the fifteen units which the candidate must offer, nine and one-half are prescribed in Group 1, and five and one-half units are elective from Group 2 of the following tabular statement:

GROUP 1. PRESCRIBED UNITS, 9½.

English	3	units
Mathematics (Algebra 1½, Plane Geometry 1)...	2½	units
Latin	4	units

GROUP 2. ELECTIVE UNITS, 5½.

Five and one-half units must be offered from the following:

French	1, 2, 3, or 4	units
German	1, 2, 3, or 4	units
Spanish	1 or 2	units
Greek	1, 2, or 3	units
History	1 or 2	units
Civics	½	unit
History of English or American Literature.....	1	unit
Physics	1	unit
Chemistry	1	unit
Biology	1	unit
Botany	½	unit
Zoölogy	½	unit
Physiography	½ or 1	unit
Solid Geometry.....	½	unit

If the applicant can not offer the full fifteen units she may be admitted conditionally as follows:

1. She must offer at least seven and a half units from Group 1 made up as follows:

English—not less than $2\frac{1}{2}$ nor more than 3 units.

Mathematics—not less than 2 nor more than $2\frac{1}{2}$ units.

Latin—not less than 2 nor more than 4 units.

2. She must also offer additional units from Group 2 to make up a total of at least thirteen. Such conditioned student must make up her deficiency during her Freshman year, if possible, and at her own expense.

II. IRREGULAR STUDENTS.—Mature students who can meet the entrance requirements, but do not intend to apply for a degree, may be matriculated on the following conditions:

First. They must be at least eighteen years of age at next birthday.

Second. They must devote at least three-fifths of their time (nine recitations weekly) to studies selected from the departments of History, Languages, Science, Mathematics, or Philosophy. Fifteen recitations per week are required. They must remove all entrance conditions within the first year of residence, if possible, and at their own expense.

III. SPECIAL STUDENTS.—Teachers and other mature persons, not less than twenty years old, desiring special courses, are admitted to classes for which they are prepared, according to the rules of the Association of Colleges and Preparatory Schools of the Southern States, without standing the regular examinations.

They must also conform to the rule regarding the minimum number of recitation periods as stated in paragraph "Second" under "Irregular Students."

IV. ADVANCED STANDING.—Students who are prepared to enter classes higher than Freshman may do so upon presenting evidence of such preparation to the Committee on Advanced Standing.

DEFINITIONS OF ENTRANCE REQUIREMENTS

ENGLISH.—Prescribed, three units; elective, one unit.

The study of English in school has two main objects: (1) Command of correct and clear English, spoken and written; (2) ability to read with accuracy, intelligence, and appreciation.

English Grammar, one-half unit; *Composition*, a unit and a half. Required.

The first object requires instruction in grammar and composition. English grammar should ordinarily be reviewed in the secondary school; and correct spelling and grammatical accuracy should be rigorously exacted in connection with all written work during the four years. The principles of English composition governing punctuation, the use of words, sentences, and paragraphs, should be thoroughly mastered; and practice in composition, oral as well as written, should extend throughout the secondary school period. Written exercises may well comprise letter writing, narration, description, and easy exposition and argument. It is advisable that subjects for this work be taken from the student's personal experience, general knowledge, and studies other than English, as well as from her reading in literature. Finally, special instruction in language and composition should be accompanied by concerted effort of teachers in all branches to cultivate in the student the habit of using good English in her recitations and various exercises, whether oral or written.

Literature, one unit. Required.

The second object is sought by means of two lists of books, headed respectively *Reading* and *Study*, from which may be framed a progressive course in literature covering four years. In connection with both lists, the student should be trained in reading aloud and encouraged to commit to memory some of the more notable passages both in verse and in prose. As an aid to literary appreciation, she is further advised to acquaint herself with the most important facts in the lives of the authors whose works she reads and with their place in literary history.

A. Reading.—The aim of this course is to foster in the student the habit of intelligent reading and to develop a taste for good literature, by giving her a first-hand knowledge of some of its best specimens. She should read the books carefully, but her attention should not be so fixed upon details that she fails to appreciate the main purpose and charm of what she reads.

From the five following groups, at least ten units (each unit being set off by periods) are to be selected, two from each group, except as otherwise provided under Group I:

I. CLASSICS IN TRANSLATION. The Old Testament, comprising at least the chief narrative episodes in Genesis, Exodus, Joshua, Judges, Samuel, Kings, and Daniel, together with the books of Ruth and Esther. The Odyssey, with the omission, if desired, of Books I, II, III, IV, V, XV, XVI, XVII. The Iliad, with the omission, if desired, of Books XI, XIII, XIV, XV, XVII, XXI. The Æneid. (The Odyssey, Iliad, and Æneid should be read in English translations of recognized literary excellence.)

For any selection from the above group a selection from any other group may be substituted.

II. SHAKESPEARE. *Midsummer Night's Dream*. *Merchant of Venice*. *As You Like It*. *Twelfth Night*. *The Tempest*. *Romeo and Juliet*. *King John*. *Richard II*. *Richard III*. *Henry V*. *Coriolanus*. *Julius Cæsar*. **Macbeth*. **Hamlet*.*

III. PROSE FICTION. Malory: *Morte d'Arthur* (about 100 pages). Bunyan: *Pilgrim's Progress*, Part I. Swift: *Gulliver's Travels* (voyages to Lilliput and to Brobdingnag). Defoe: *Robinson Crusoe*, Part I. Goldsmith: *Vicar of Wakefield*. Frances Burney: *Evelina*. Scott's novels: any *one*. Jane Austen's novels; any *one*. Maria Edgeworth: *Castle Rackrent* or *The Absentee*. Dickens's novels: any *one*. Thackeray's novels: any *one*. George Eliot's novels: any *one*. Mrs. Gaskell: *Cranford*. Kingsley: *Westward Ho!* or *Hereward, the Wake*. Reade: *The Cloister and the Hearth*. Blackmore: *Lorna Doone*. Hughes: *Tom Brown's School Days*. Stevenson: *Treasure Island*, or *Kidnapped*, or *Master of Ballantrae*. Cooper's novels: any *one*. Poe: *Selected Tales*. Hawthorne: *The House of the Seven Gables*, or *Twice Told Tales*, or *Mosses from an Old Manse*. A collection of *Short Stories* by various standard writers.

IV. ESSAYS, BIOGRAPHY, etc. Addison and Steele: *The Sir Roger de Coverley Papers* or *Selections from the Tatler and Spectator* (about 200 pages). Boswell: *Selections from the Life of Johnson* (about 200 pages). Franklin: *Autobiography*. Irving: *Selections from the Sketch Book* (about 200 pages) or *Life of Goldsmith*. Southey: *Life of Nelson*. Lamb: *Selections from the Essays of Elia* (about 100 pages). Lockhart: *Selections from the Life of Scott* (about 200 pages). Thackeray: *Lectures on Swift, Addison, and Steele in the English Humourists*. Macaulay: any *one* of the following essays: *Lord Clive*; *Warren Hastings*; *Milton*; *Addison*; *Goldsmith*; *Frederick the Great*; *Madame d'Arblay*. Trevelyan: *Selections from the Life of Macaulay* (about 200 pages). Ruskin: *Sesame and Lilies* or *Selections* (about 150 pages). Dana: *Two Years before the Mast*. Lincoln: *Selections*, including at least the two Inaugurals, the *Speeches in Independence Hall* and at *Gettysburg*, the *Last Public Address*, the *Letter to Horace Greeley*, together with a brief memoir or estimate of Lincoln. Parkman: *The Oregon Trail*. Thoreau: *Walden*. Lowell: *Selected Essays* (about 150 pages). Holmes: *The Autocrat of the Breakfast Table*. Stevenson: *An Inland Voyage and Travels with a*

*If not chosen for study under B.

Donkey. Huxley: Autobiography and selections from Lay Sermons, including the addresses on Improving Natural Knowledge, A Liberal Education, and A Piece of Chalk. A collection of Essays by Bacon, Lamb, De Quincey, Hazlitt, Emerson, and later writers. A collection of Letters by various standard writers.

V. POETRY. Palgrave: Golden Treasury (First Series), Books II and III, with special attention to Dryden, Collins, Gray, Cowper, and Burns. Golden Treasury (First Series), Book IV, with special attention to Wordsworth, Keats, and Shelley (if not chosen for study under *B*). Goldsmith: The Traveller and The Deserted Village. Pope: The Rape of the Lock. A collection of English and Scottish ballads: as, for example, some Robin Hood ballads, The Battle of Otterburn, King Estmere, Young Beichan, Bewick and Grahame, Sir Patrick Spens, and a selection from later ballads. Coleridge: The Ancient Mariner, Christabel, and Kubla Khan. Byron: Childe Harold, Canto III or IV and The Prisoner of Chillon. Scott: The Lady of the Lake or Marmion. Macaulay: The Lays of Ancient Rome, The Battle of Naseby, The Armada, and Ivry. Tennyson: The Princess or Gareth and Lynette, Lancelot and Elaine, and The Passing of Arthur. Browning: Cavalier Tunes, The Lost Leader, How They Brought the Good News from Ghent to Aix, Home Thoughts from Abroad, Home Thoughts from the Sea, Incident of the French Camp, Hervé Riel, Pheidippides, My Last Duchess, Up at a Villa—Down in the City, The Italian in England, The Patriot, The Pied Piper, "De Gustibus—", and Instans Tyrannus. Arnold: Sohrab and Rustum and The Forsaken Merchant. Selections from American poetry, with special attention to Poe, Lowell, Longfellow, and Whittier.

B. Study.—This part of the requirement is intended as a natural and logical continuation of the student's earlier reading, with greater stress laid upon form and style, the exact meaning of words and phrases, and the understanding of allusions. The books provided for study are arranged in four groups, from each of which one selection is to be made:

I. DRAMA. Julius Cæsar. Macbeth. Hamlet.

II. POETRY. Milton: L'Allegro, Il Penseroso, and either Comus or Lycidas. Tennyson: The Coming of Arthur, The Holy Grail, and The Passing of Arthur. The selections from Wordsworth, Keats, and Shelley in Book IV of Palgrave's Golden Treasury (First Series).

III. ORATORY. Burke: Speech on Conciliation with America. Macaulay's Speech on Copyright and Lincoln's Speech at Cooper Union. Washington's Farewell Address and Webster's First Bunker Hill Oration.

IV. ESSAYS. Carlyle: Essay on Burns, with a selection from Burns's Poems. Macaulay: Life of Johnson. Emerson: Essay on Manners.

History of English Literature, or History of American Literature, with selected readings. [The readings should be in addition to those offered under *A* and *B*.] One unit. Elective.

MATHEMATICS (counting three units).—(a) ALGEBRA (one and one-half units).—The four fundamental operations for rational algebraic expressions; factoring, determination of highest common factor and lowest common multiple by factoring; fractions, including complex fractions; ratio and proportion; linear equations, both numerical and literal, containing one or more unknown quantities; problems depending on linear equations; radicals, including the extraction of the square root of polynomials and numbers; exponents, including the fractional and negative.

Quadratic equations, both numerical and literal; simple cases of equations with one or more unknown quantities that can be solved by the methods of linear or quadratic equations; problems depending upon quadratic equations; the binomial theorem for positive integral exponents; the formulas for the n th term and the sum of the terms of arithmetical and geometrical progressions, with applications.

(b) PLANE GEOMETRY (one unit).—The usual theorems and constructions of good text-books, including the general properties of plane rectilinear figures; the circle and the measurements of angles; similar polygons; areas; regular polygons and the measurement of the circle. The solution of numerous original exercises, including loci problems. Application to the mensuration of lines and plane surfaces.

(c) SOLID GEOMETRY (one-half unit).—The usual theorems and constructions of good text-books, including the relations of planes and lines in space; the properties and measurement of prisms, pyramids, cylinders and cones; the sphere and the spherical triangle. The solution of numerous original exercises, including loci problems. Applications to the mensuration of surfaces and solids.

LATIN (four units).—School Grammar, such as Gildersleeve's, Allen and Greenough's, or Bennett's. Accurate knowledge of the forms is insisted upon. Exercise in prose composition should be written throughout the entire course of preparation. Reading: Four books of Cæsar, six orations of Cicero, and six books of Virgil's *Æneid*. Sight-translation of easy prose.

In accordance with the report of the Commission on College-Entrance Requirements in Latin, an amount of reading equivalent to the above may be selected from the following authors and their works:

Cæsar (Gallic War and Civil War) and Nepos (Lives); Cicero (orations, letters, and *De Senectute*) and Sallust (Catiline and Jugurthine War); Virgil (Bucolics, Georgics, and *Æneid*) and Ovid (*Metamorphoses*, *Fasti*, and *Tristia*).

All candidates, however, must offer the following prescribed reading: Cicero, orations for the Manilian Law and for Archias, and Virgil, *Æneid*, I, II, and either IV or VI at the option of the candidate.

The Committee especially recommends that in the training of the student increased stress be laid upon translation at sight.

GREEK (three units).—Elementary grammar with special attention to forms and practice in prose composition. Reading: Four books of Xenophon's *Anabasis*; three books of Homer's *Iliad*. Translation of easy prose at sight.

HISTORY (counting one or two units).—A unit may be offered in any of the following courses:

- (a) United States History and Civil Government.
- (b) English History.
- (c) English and American History.
- (d) Mediæval and Modern History.
- (e) Greek and Roman History.

The preparation required may be indicated by citing such textbooks as Montgomery's *History of the United States*, Andrews' *History of England*, Adams' *Mediæval and Modern History*, West's *Ancient History*, Myers' *General History*.

CIVICS (one-half unit).—Text recommended: Forman's *Advanced Civics*.

FRENCH (one unit).—Essentials of grammar, especially verbs, elementary syntax, and an acquaintance with French pronunciation. Reading of 250 pages, with ability to translate simple passages from French to English and English to French.

FRENCH (two units).—A good knowledge of French syntax such as would be obtained from Fraser and Squair's *Grammar*; all irregular verbs; French pronunciation (a simple study of phonetics is recommended); such facility in translation as should be ac-

quired by reading 600 pages in texts of standard authors. In all cases, works must be specified and amount read. It is recommended that two units be offered whenever possible.

FRENCH (three units).—A thorough knowledge of ordinary French syntax and grammar is necessary. The student must have read 1,100 to 1,200 pages of French, a large portion in standard prose texts; ability to speak and understand French with some facility.

FRENCH (four units).—This presupposes four years of high-school work, including a thorough knowledge of grammatical forms and syntax; ability to translate ordinary texts from French to English and English to French at sight; a good acquaintance with French pronunciation and some phonetics; the reading of at least 2,000 pages in specified standard texts. The student will be tested orally on her attainments in the spoken language.

College credit for work done in the high school will be given only on examination. Special examinations for this purpose will be held during the first week after the opening of College.

SPANISH (one unit).—Same preparation as for French.

SPANISH (two units).—Same preparation as for French.

College credit for work done in the high school will be given only on examination. Special examinations for this purpose will be held during the first week after the opening of College.

GERMAN* (one unit).—Careful drill in pronunciation is necessary. An elementary phonetic explanation and practise of the German sounds is especially recommended, based for example, on some such presentation as that in Chapter IV of *The Teaching of Modern Languages*, by Leopold Bahlsen (Ginn and Co.). This year should further comprise thorough elementary work in inflection, word-order, and syntax. Easy daily exercises should accompany this material. The reading should consist of from 75 to 100 pages of graduated texts. Colloquial sentences, either from the texts or the grammar, should be memorized and practised. At least six German poems should be learned by heart during this year. "Suitable

*These requirements follow the recommendations of the Modern Language Association of America (See College Entrance Examination Board, Document No. 68). Sentences taken directly from that Document are here placed in quotation marks.

texts for the first year are: After one of the many readers especially prepared for beginners—Meissner's *Aus meiner Welt*; Blüthgen's *Das Peterle von Nürnberg*; Storm's *Immensee*, or any of Baumbach's short stories."

GERMAN (two units).—The second year's work should continue the frequent exercises in writing German, based preferably on the texts read in class. Regular oral work in German is especially recommended. The pupil's knowledge of grammar should be thoroughly fixed by repetition of essentials, and gradually extended throughout the year. The pupil should be able to state grammatical rules clearly and accurately. Six German poems should be memorized. The reading for this year should comprise from 150 to 200 pages. "Suitable texts for the second year are: Gerstäcker's *Germelshausen*; Eichendorff's *Aus dem Leben eines Taugenichts*; Wildenbruch's *Das edle Blut*; Jensen's *Die braune Erica*; Seidel's *Leberecht Hühnchen*; Fulda's *Unter vier Augen*; Benedic's *Lustspiele* (any one)."

GERMAN (three units).—During this year the work should comprise "the reading of about 400 pages of moderately difficult prose and poetry with constant practice in giving, sometimes orally, sometimes in writing, paraphrases, abstracts, or reproductions from memory of selected portions of the matter read; also grammatical drill upon the less usual strong verbs, the use of articles, cases, auxiliaries of all kinds, tenses and modes (with especial reference to the infinitive and the subjunctive), and likewise upon word-order and word-formation." Six German poems should be memorized. The reading should include one play of Schiller, and *Hermann und Dorothea*, or *Minna von Barnhelm*.

GERMAN (four units).—The work for this year should comprise "the reading of about 500 pages of good literature in prose and poetry, reference readings upon the lives and works of the great writers studied, the writing in German of numerous short themes upon assigned subjects." The pupil should be able to "answer in German questions relating to the lives and works of great writers studied, and to write in German a short and independent theme upon some assigned topic." Six German poems should be memorized during the year. "Suitable texts for the fourth year are: Goethe's, Schiller's, Lessing's works and lives."

PHYSICS (one unit).—The following text-books are recommended: Millikan and Gale's First Course in Physics; Carhart & Chute's Principles of Physics; Hoadley's Essentials of Physics.

The subject should occupy one year with the equivalent of three recitations and three hours of laboratory work a week. The recitations should be accompanied by demonstrations illustrating the principal phenomena. A laboratory notebook with certificate signed by the instructor, stating that the notebook is a record of the individual laboratory work done by the student presenting it, should be presented at the time of matriculation.

CHEMISTRY (one unit).—Recitation and laboratory work equivalent to five periods weekly throughout one year of a high school course. The candidate must present a notebook bearing the statement, signed by her instructor, that it is a true and satisfactory record of laboratory practice done by the student presenting it, and that it has been written by her.

BIOLOGY (one unit).—A year's work in general biology, with text-book and laboratory work of at least five periods per week. At least two periods per week should be devoted to laboratory work, and the student must present the laboratory note-book for examination.

Text recommended: Hunter's Essentials of Biology.

BOTANY (one-half unit).—Half a year's work in the study of plants, with laboratory work as required in general biology.

Texts recommended: Stevens' Introduction to Botany; Coulter's Plants; Bergen and Davis' Principles of Botany.

ZOÖLOGY (one-half unit).—Half a year's work in the study of animals, with laboratory work as required in general biology.

Texts recommended: Kellogg's Elementary Zoölogy; Galloway's Elementary Zoölogy; Davenport's Elements of Zoölogy; Linville and Kelly's General Zoölogy.

PHYSIOGRAPHY (one-half unit).—This subject may entitle the candidate to *one unit* if it has been pursued for an entire year with laboratory work and a note-book is presented.

ADMISSION BY CERTIFICATE

The certificates of High Schools, Seminaries, Institutes, Fitting Schools and Colleges that are accredited by any College of the Association of Colleges and Preparatory Schools of the Southern States, or by the similar associations of the New England and Middle States, will be received in lieu of entrance examinations for what they certify to have been done. These certificates should be on the forms provided by the College. When desired, examination questions will be sent to teachers preparing students for the College, who will return the papers to us.

HOW TO APPLY FOR ADMISSION

All applications for reservation of room should be promptly followed by statement of preparation made upon the blank forms of the College. These will be sent upon request free of charge.

Rooms in the College dormitories will be assigned to new students in the order of their engagements.

Students should report to the office promptly upon arrival.

REQUIREMENTS FOR DEGREES

The degrees offered are Bachelor of Arts and Master of Arts.

THE A. B. DEGREE

Every candidate for the A. B. degree must complete, before graduation, sixty hours of college work. The unit of time is the session hour; that is, one class appointment per week for one session counts as one hour.

The arrangement of courses leading to the degree consists of two years of prescribed and two years of elective work.

The following courses are required of all candidates for the A. B. degree:

English	Freshman year.....	3 hours
Latin	Freshman year.....	3 hours
Mathematics	Freshman year.....	4 hours
Greek	}	Freshman or Sophomore year, 3 hours
or		
French		
or		
German	}	Freshman or Sophomore year, 3 hours
History		
or		
Political Science	}	Freshman or Sophomore year, 3 hours
A Science.....	Freshman or Sophomore year,	3 hours
Bible	Freshman or Sophomore year,	2 hours
Philosophy	Sophomore year.....	3 hours
A Science.....	Sophomore or Junior year....	3 hours
English	}	Sophomore or Junior year.... 3 hours
or		
French		
or		
German		
or		
Greek		
or		
Philosophy		

30 hours

All candidates for the degree are required to take at least one college course in French, German, or Greek. Those receiving no entrance credits in French or German must take one college course

in each subject. A student may be excused from a college course in one of them provided she has an entrance credit of at least one unit in that subject and completes the equivalent of two college courses in the other.

Those who offer three units of Greek for admission may take the required college course in that subject.

One course each in two of the sciences, Biology, Chemistry, and Physics, must be taken by all applicants for the degree. A student credited with an entrance unit in the remaining one of these sciences will be excused from a college course in this subject. Those who do not receive any entrance credits in these subjects are required to take a full year's course in each of two of them and a half year in the other one.

As far as possible, required courses should be completed before electives are taken.

Upon completing the work of the second year, each student will be expected to select a leading subject from the following: English, English Literature, Latin, Greek, German, French, Philosophy, History, Mathematics, Chemistry, Physics, Biology, or Sociology. She will be required to complete nine hours of elective courses in her leading subject. Other courses amounting to nine hours will be arranged after conference with her adviser, the head of the department in which she elects her principal work. The remaining twelve hours of electives may be selected by the student.

THE A. M. DEGREE

For this are required:

1. The A. B. Degree.
2. Fifteen hours a week for one year, in residence, the work to be selected by the student from advanced courses, subject to the approval of the faculty. In place of three hours of this work, a thesis on work in the student's principal subject may be substituted if desired by the student and approved by the professor.

CERTIFICATES OF PROFICIENCY

A student completing satisfactorily the course in Music or Art will, upon application, receive a Certificate of Proficiency.

COURSES OF INSTRUCTION

ASTRONOMY

PROFESSOR KILBY

MISS CURE

Astronomy 1 *Descriptive Astronomy.*

2 hrs.

Wednesday and Friday, 12:20.

This course deals largely with the descriptive phase of the subject, and is intended to give general information concerning celestial phenomena. Methods of determining time, positions of stars, motions of planets, etc., are fully discussed, and use is made of star charts, lantern slides, celestial globe, and the observatory. The text-book is supplemented by lectures on Astro-physics, Spectroscopy, Cosmogony, and other allied topics. When the weather permits, the class meets on Thursday night for observatory work, and in this event does not meet on the following Friday. Mathematics 1 and some knowledge of Physics are prerequisite. No credit is given for a half-year's work.

TEXT—Manual of Astronomy, Young.

BIBLE

PROFESSOR AYERS

ADJUNCT-PROFESSOR MCCONNELL

Bible 1 *New Testament Introduction.*

2 hrs.

Monday and Wednesday, 9:50 and 11:30.

Tuesday and Thursday, 9:00, 10:40 and 11:30.

Wednesday and Friday, 12:20.

Aims: (1) To show how we got our English Bible; (2) To study the life and teaching of Jesus; (3) To study the work of the Apostles in establishing the early church; (4) To have each student do some original work in connection with the course.

Bible 2 *Old Testament Introduction.*

2 hrs.

Tuesday and Thursday, 12:20.

Aims: (1) To study the Hebrew people to the time of entrance into Palestine; (2) To study the nation from the death of Moses to the division of the kingdom; (3) To study the kings and prophets from the division of the kingdom to the Babylonian exile; (4) To study post-exilic Judaism to the beginning of the Christian era; (5) To prepare one paper on some Old Testament subject; (6) To supplement the above with the study of the Bible as Literature.

Bible 3 *Studies in Christianity.*

2 hrs.

Wednesday and Friday, 9:00.

Aims: (1) To study the varieties of religious experience, as based upon the teachings of the Synoptic Gospels, the writings of St. John, and the Epistles of Paul, James, and Peter.

(2) Christian interpretation of modern problems. Elective for Juniors and Seniors, and for Sophomores who have completed Course 1 or 2.

BIOLOGY

PROFESSOR HAMAKER

MISS FIELD

MISS WESTALL

Biology 1 *General Biology.*

3 hrs.

For schedule see page 82.

This introductory course is designed to acquaint the student with the more important principles of organization and of the life relations of organisms.

About a third of a year's work is devoted to each of the following divisions of the subject:

- (a) The structure and functions of typical plants.
- (b) The structure and functions of typical animals.
- (c) A discussion of general biological problems, such as the structure and activities of protoplasm and the cell, development and differentiation, genetic relations and adaptations.

The class meets twice a week for lectures and recitations and once or twice a week for laboratory exercise.

Biology 2 *Botany.*

3 hrs.

Tuesday and Thursday, 2:00 to 4:25 and one hour to be arranged.

The structure, physiology, and genetic relations of plants. Most of the time is devoted to the study of types of the most important orders of Cryptogams and an extended consideration of the relations of the Archegoniates, Gymnosperms, and Angiosperms.

Biology 3 *Zoölogy.*

3 hrs.

Wednesday and Friday, 2:00 to 4:25 and one hour to be arranged.

Comparative morphology and biology of animals as represented by a series of types of the most important classes of invertebrates and vertebrates.

Biology 4 *Comparative Anatomy of the Vertebrates.* 3 hrs.

Tuesday and Thursday, 2:00 to 4:25 and one hour to be arranged.

This course will consist chiefly of the dissection of typical examples of fishes, amphibians, reptiles, and mammals.

[**Biology 5** *Histology.* 3 hrs. 1st term.

Schedule to be arranged.

This course will consist wholly of laboratory work involving the practice of the most important methods employed in histological technique, and the study of the cell and the tissues. Not offered 1916-17.]

[**Biology 6** *Embryology.* 3 hrs. 2d term.

Schedule to be arranged.

During the second term there will be occasional lectures, but the work will be chiefly in the laboratory and will consist of the application of histological methods to the study of the development of the vertebrate embryo (frog and chick). Not offered 1916-17.]

Biology 7 *Economic Microorganisms.* 2 or 3 hrs. 1st term.

Schedule to be arranged.

This course deals broadly with the phenomena of organic ferments and more specifically with the pathogenic microorganisms.

Biology 8 *Human Physiology.* 2 or 3 hrs. 2d term.

Schedule to be arranged.

Open to students who have had Biology I. The class meets twice a week for lecture and recitation and once for laboratory exercise. The course may be taken with or without the laboratory work, and is valued at two or three hours respectively.

CHEMISTRY

PROFESSOR MARTIN

MISS SHERRILL

MISS WALKER

Chemistry 1 *Inorganic Chemistry.* 3 hrs.

For schedule see page 82.

The subject is developed from the standpoint of the Periodic Law. Especial attention is given to the demonstration of fundamental principles and the solving of stoichiometric problems. One lecture and two recitations weekly during the first half-session; one lecture, one recitation, and three hours of laboratory practise in qualitative analysis weekly during the second half-session.

TEXTS—Martin's Collegiate Chemistry; Martin's Qualitative Analysis.

Chemistry 2 *Elementary Quantitative Analysis.* 3 hrs. 1st term.

Monday, Wednesday and Friday, 2:00 to 4:25.

This course is designed to acquaint the student with the simpler methods of quantitative work and to develop technique. Laboratory practice nine hours weekly during the first half-session. Course 1 is prerequisite.

Chemistry 3 *Advanced Qualitative Analysis.* 3 hrs. 2d term.

Monday, Wednesday and Friday, 2:00 to 4:25.

This course presents an advanced discussion of chemical theory from the vantage points of *solution*, *equilibrium*, and *mass action*. Nine hours weekly during the second term. Course 2 is prerequisite.

Chemistry 4 *Advanced Quantitative Analysis.* 3 hrs. 1st term.

Monday, Wednesday and Friday, 2:00 to 4:25.

In this course, gravimetric, volumetric, colorimetric, and electrolytic methods are applied in the analysis of pure compounds, mixtures, alloys, ores, and foodstuffs. Nine hours weekly during the first half-session.

Chemistry 5 *Organic Chemistry.* 3 hrs. 2d term.

Monday, Wednesday and Friday, 2:00.

A thorough study of the *aliphatic hydrocarbons*; the theoretical basis of the science is particularly emphasized. Three times weekly during the second half-session.

TEXT—Martin's Essentials of Organic Chemistry.

Chemistry 6 *Organic Chemistry.* 3 hrs.

Wednesday and Friday, 9:00; Monday, 2:00 to 4:25.

This course is devoted to a study of the *aromatic hydrocarbons* and to laboratory practice. About forty qualitative experiments are made, and a set of twenty-four pure organic compounds are prepared for the college museum. One lecture, one recitation, and three hours of laboratory practise weekly throughout the year. Course 5 is prerequisite.

Chemistry 7 *Mineralogy.* 1 hr.

Saturday, 2:00 to 4:25.

This course presents an elementary study of crystallography and the systematic analysis of minerals by means of their physical and chemical properties. One period (three laboratory hours) weekly throughout the year.

TEXTS—Dana's Mineralogy; Williams' Crystallography; Brush and Penfield's Determinative Mineralogy.

Course 1 is required of all students who do not offer chemistry for admission to college. Courses 2, 3, 4, 5 are required for the A. B. of all students majoring in chemistry, and are elective for all others. Courses 6 and 7 are offered primarily to candidates for the master's degree, but they may be elected by properly qualified undergraduates.

EDUCATION

PROFESSOR CROOKS

MISS WILKINS

Education 1 *History of Education.*

3 hrs. 1st term.

Tuesday, Thursday and Saturday, 10:40.

The aim of this course is to trace through ancient, mediæval, and modern times the history and development of present educational ideals. Supplementary reading of original sources.

TEXT—Monroe's Text-Book in the History of Education.

Education 2 *Method and Practice.*

3 hrs. 2d term.

Tuesday, Thursday and Saturday, 10:40.

In this course a study will be made of the principles of education as applied to the actual procedure of the school-room. Students will be given practise in the preparation and teaching of lessons.

TEXTS—McMurry's Method of the Recitation; McMurry's How to Study; Henderson's Principles of Education.

Education 3 *Educational Psychology.*

2 hrs. 1st term.

Monday and Wednesday, 12:20.

This is an empirical study of the learning process. The various types of learning are taken up and illustrated. Finally Psychology is reviewed in its relation to the problems of teaching.

TEXTS—Thorndike's Educational Psychology; Dewey's How We Think.

Education 4 *Philosophy of Education.*

2 hrs. 2d term

Monday and Wednesday, 12:20.

This course deals with the fundamental principles that underlie education and attempts to define an educational standard. Method as related to such standard is discussed.

TEXTS—Horne's Philosophy of Education; Henderson's Principles of Education.

Education 5 *School Management.*

1 hr.

Friday, 12:20.

The general problems of school management are considered, with special reference to discipline and government of secondary schools

[Education 6 *Advanced Courses.*

3 hrs.

Thursday, Friday and Saturday, 9:50.

(a) *History of Education.*

An intensive study of some selected educational masterpieces, with an attempt to interpret these in their general relationship to philosophic movements, will cover this part of the course. Two hours a week throughout the year.

BOOKS—Rousseau's *Emile*; Herbert's *Science of Education*; Spencer's *Education*; Pestalozzi; Fröbel.

(b) *Comparative Educational Systems.*

A study will be made of British, French, German, and American educational systems. One hour a week throughout the year. Not offered 1916-17.]

French 7 *Method of Teaching French.*

1 hr.

This course is offered by the Department of French. See French 7.

German 7 *Method of Teaching German.*

2 hrs.

This course is offered by the Department of German. See German 7.

Latin 7 *Method of Teaching Latin.*

1 hr. 2d term.

This course is offered by the Department of Latin. See Latin 7.

Mathematics 8 *History and Teaching of Mathematics.*

1 hr.

This course is offered by the Department of Mathematics.

ENGLISH

PROFESSOR ARMSTRONG

ADJUNCT-PROFESSOR POWELL

MISSES DAVIDSON, DILLARD, CORNELIUS

A. COMPOSITION**English 1 *Advanced Rhetoric and Composition.***

3 hrs.

For schedule of sections see page 82.

Forms of discourse: practise in theme writing, with careful attention to the paragraph; elements of planning. This work is accompanied by a large amount of analysis to illustrate the principles. Subjects for longer composition are assigned at stated intervals. Special attention is given Description and Narration.

For admission to this course, the applicant is examined upon the subjects included in the requirements for admission (see pp. 32-37). Stress is laid upon careful preparation in style—Diction, Figures of

Speech and the Sentence—reënforced by a large amount of analysis and composition. In addition, knowledge of the elementary laws of the Paragraph and of Forms of Discourse is required. In lieu of an examination, a certificate showing that these subjects have been satisfactorily completed will be accepted from an accredited school.

English 2 *Exposition and Argumentation.* 3 hrs.

Tuesday, Thursday and Saturday, 10:40.

A study of the principles, with special attention to analysis, planning, and brief drawing. Prerequisite: Course 1.

[**English 16** (a) *Practise Themes.* 3 hrs. 1st term.

Tuesday, Thursday and Saturday, 10:40.

A course to give practise in recognizing what is worth telling and in telling it effectively. Prerequisite: Course 1.

(b) *The Short Story.* 3 hrs. 2d term.

Tuesday, Thursday and Saturday, 10:40.

An investigation of its principles and characteristics, as a foundation for critical reading and for writing stories. Prerequisite: Course 1. Not offered 1916-17.]

B. LANGUAGE

[**English 11** *Anglo-Saxon.* 3 hrs.

Tuesday, Thursday and Saturday, 12:20.

Grammar and Translations, with a brief history of the literature. Prerequisite: Course 1. Not offered 1916-17.]

English 12 *Middle English.* 3 hrs.

Tuesday, Thursday and Saturday, 12:20.

An introduction to the language and literature.

English 13 *Theory of English Grammar.* 3 hrs.

Tuesday, Thursday and Saturday, 11:30.

Historical Grammar; Investigation of forms and idioms. This course is especially helpful to those expecting to teach in preparatory schools. Open to those who have completed Course 1.

C. LITERATURE

English 3 *American Literature, 1800-1870.* 3 hrs.

Monday, Wednesday and Friday, 12:20.

The literature of this time will be considered in its relation to national life, and as affected by political, economic, and social influ-

ences. Works of representative authors will be read in order to observe growth and tendencies. Open to third- and fourth-year students.

[**English 4** *Romanticism in English Literature of the Eighteenth and Nineteenth Centuries.* 3 hrs.

Monday, Wednesday and Friday, 10:40.

A study of its characteristics, illustrated by readings from representative authors. Prerequisite: Course 1. Not offered 1916-17.]

English 5 (a) *Tennyson.* 3 hrs. 1st term.

Monday, Wednesday and Friday, 10:40.

Prerequisite: Course 1.

(b) *Browning.* 3 hrs. 2d term.

Monday, Wednesday and Friday, 10:40.

Prerequisite: Course 1.

English 6 *History of English Literature.* 3 hrs.

Monday, Wednesday and Friday, 11:30.

A general survey, with representative selections.

ENGLISH LITERATURE

PROFESSOR BLACKWELL

All courses in English Literature are elective, and, with certain restrictions, are open to all students except Freshmen.

Students proposing to elect a single full course should take Course 2; those proposing to elect two courses should take 2, to be followed by Courses 3, 4, or 5.

English Literature 2 *Shakespeare.* 3 hrs.

Monday, Wednesday and Friday, 9:00.

Monday, Wednesday and Friday, 9:50.

Tuesday, Thursday and Saturday, 10:40.

Six or eight plays are read. A critical study is made of structure, plot, and delineation of character. This course aims, by means of reading and classroom interpretation, to give the student a more intimate knowledge of Shakespeare's dramas and a deeper appreciation of certain aspects of his art.

[**English Literature 3** *Chaucer.* 3 hrs.

Monday, Wednesday and Friday, 10:40.

This course alternates with English Literature 5. A detailed study is made of selected works, with reference to the sources of his poems

and his use of his material. It considers Chaucer's rank as an artist and his significance as a representative of the spiritual and social forces of the fourteenth century. The aim of this course is primarily literary, and seeks to develop the student's insight and appreciation by intensive study of a definite number of poems. Omitted in 1916-17.]

MISS RUSSELL

MISS ANNIE WHITESIDE

Mathematics 1

4 hrs.

For schedule of sections see page 84.

(a) *Advanced Algebra.*

Beginning with a fuller treatment of ratio, proportion, variation, the three progressions, surds and imaginaries than is

usually given in preparatory schools, this class will take up in order the theory of quadratic equations, permutations and combinations, binomial theorem, logarithms, series, undetermined coefficients, probability, determinants, and the theory of equations.

(b) *Solid Geometry.*

Lines and planes in space, dihedral and polyhedral angles, projections, polyhedra, including prisms, pyramids and the regular solids, cylinders, cones, spheres, spherical triangles, and the measurement of surfaces and solids.

(c) *Plane Trigonometry.*

While a careful study will be made of the properties of right and oblique triangles and their solution, much of the time will be devoted to trigonometric analysis.

TEXT-BOOKS—Wells' Advanced Course in Algebra; Slaught and Lennes's Solid Geometry; Conant's Plane Trigonometry.

Mathematics 2

3 hrs.

Tuesday, Thursday and Saturday, 9:50.

(a) *Analytic Geometry.*

The conception of a locus having been established, the straight line, the circle, the parabola, the ellipse, the hyperbola, the polar equation of the conic, and the general equation of the second degree are successively taken up; this is followed by an elementary introduction to Solid Geometry.

(b) *Differential and Integral Calculus.*

A study of the elementary principles and applications of the Calculus.

TEXT-BOOKS—Tanner and Allen's Analytic Geometry; Granville's Differential and Integral Calculus.

Mathematics 3

3 hrs.

Tuesday, Thursday and Saturday, 11:30.

(a) *Integral Calculus.*

This is a continuation of the work given in Course 2, the subject here being treated much more fully.

(b) *Theory of Equations.*

An advanced course in the general Theory of Equations, in which a knowledge of the Calculus will be presupposed.

TEXT-BOOKS—Granville's Differential and Integral Calculus; Burnside and Panton's Theory of Equations, Vol. I.

| Mathematics 4

3 hrs.

Tuesday, Thursday and Saturday, 12:20.

(a) *Analytical Geometry of Three Dimensions.*

The plane, the straight line, the quadric surfaces, general theory of surfaces.

(b) *Differential Equations.*

An elementary course devoted mainly to the solution of the simpler ordinary and partial differential equations, with a few geometric and physical applications.

TEXT-BOOKS—C. Smith's Solid Geometry; Murray's Differential Equations. Not offered 1916-17.]

Mathematics 5

3 hrs.

Tuesday, Thursday and Saturday, 12:20.

(a) *Analytic Geometry.*

An advanced course, with an introduction to modern Analytic Geometry.

(b) *Advanced Calculus.*

The usual topics of an advanced course will be treated, while many examples taken from problems in Geometry and Physics will be considered.

TEXT AND REFERENCE BOOKS—Salmon's Conic Sections; Goursat's Cours d'Analyse; Williamson's Differential Calculus; Williamson's Integral Calculus; Wilson's Advanced Calculus.

Mathematics 6 *Projective Geometry.*

2 hrs.

Wednesday and Friday, 9:00.

An elementary presentation of the spirit and methods of modern Synthetic Geometry. Reye's Geometrie der Lage will be the basis of the course, which will be given through lectures, assigned readings and the solution of exercises.

Mathematics 7 *Analytic Mechanics.*

2 hrs.

This course is intended to present the applications of the calculus to mechanics.

A first course in calculus will be a prerequisite.

Mathematics 8 *History and Teaching of Mathematics.* 1 hr.

A course designed to give a general view of the historical development of mathematics and the methods of teaching the subject.

Wednesday and Friday, 10:40.

TEXTS—Electricity and Magnetism, Franklin and MacNutt; Mechanics and Heat, Franklin and MacNutt; Experiments in Electricity, Magnetism and Heat, Kilby. Not offered in 1916-17.]

Physics 2 and Physics 3 are continuations of Physics 1, and consist of more advanced treatments of the subject. They are offered on alternate years, and either may be taken first. Laboratory work accompanies each course. Physics 2 will be given in 1916-17.

NOTE—It is absolutely necessary for new students to bring their high-school laboratory report books, properly signed, in order to obtain entrance credit.

POLITICAL SCIENCE

PROFESSOR PEAKE

MISS BRANDT

Political Science 1 *Ancient Political History.* 3 hrs.

Monday, Wednesday and Friday, 9:00.

An outline course in the political history of the ancient world emphasizing the political experiments of the Greeks and Romans, the rise of political speculation, and the political theories of Plato, Aristotle, Polybius, etc. This course is intended primarily as a preparation for more specialized work in Political Science.

Required for the A. B. degree as an alternative with History 1.

Political Science 2 *Political Parties and Politics in the United States.* 3 hrs.

Tuesday, Thursday and Saturday, 9:00.

After a brief review of the leading facts in American political history, this course will take up as its principal work a detailed study of political parties and practical politics in the United States.

Political Science 3 *American Government.* 3 hrs. 1st term.

Tuesday, Thursday and Saturday, 10:40.

A study of national and local government in the United States, with emphasis on the actual *work* of government.

Political Science 4 *City Government.* 3 hrs. 2d term.

Tuesday, Thursday and Saturday, 10:40.

A study of the form, administration, and problems of municipal government in the United States, supplemented by references to municipal conditions in England and Europe.

Political Science 5 *Elements of Political Science.*

Tuesday and Saturday, 11:30. 2 hrs. 1st term.

An introductory course in the elements of political science dealing with the origin, nature, forms and functions of the State.

Political Science 6 *Comparative Government.* 2 hrs. 2d term.

Tuesday and Saturday, 11:30.

A comparative study of American and European governments, with the government of the United States as the standard.

Political Science 7 *International Law.* 1 hr.

Thursday, 11:30.

A study of the principles, nature, and sources of international law, illustrated by leading cases.

SOCIOLOGY

PROFESSOR AYERS

Sociology 1 *Introduction to Economics.*

3 hrs.

Tuesday, Thursday and Saturday, 9:50.

This course deals with the rise of modern industry and its expansion in the United States; production, distribution, and consumption; value, price, and the monetary system of the United States; tariff, labor movement, natural and legal monopolies; American railroads and trusts; economic reform; government expenditures and revenues; taxation and economic progress.

The last half of this course deals with the development of economic thought. This will include a brief survey of economic thought in classical antiquity and its development in Europe, England, and America. Mill, Turgot, Adam Smith, Malthus, Ricardo, and other writers will be considered.

The members of the class will be taken on tours of inspection through industrial institutions in and about Lynchburg.

Sociology 2 *Introduction to Social Service.*

3 hrs.

Section A—Monday, Wednesday and Friday, 9:00.

Section B—Monday, Wednesday and Friday, 10:40.

This course deals with early social development, achievement, civilization, and the growth of modern social institutions; elimination of social evils; the social ideal; charities, compulsory insurance, and corrective legislation.

Particular problems of city and country life will be discussed. Students will be directed in personal investigation of social conditions in Lynchburg.

Prisons, almshouses, and other institutions will be studied. The aim of the course is to prepare students for social service.

One thesis is required.

Sociology 3 *Socialism.*

3 hrs.

Tuesday, Thursday and Saturday, 11:30.

The purpose of this course is to acquaint the student with the various utopian schemes of government in order to separate the transient from the permanent in political society. Some attention will be given to such writers as Plato, Fourier, Proudhon, Louis Blanc, Thomas More, and Edward Bellamy; but most of the time will be given to present socialistic theories and development. The nature, strength, and weakness of socialism will be considered; the golden mean of practical reform will be studied. Lectures, recitations, and discussions. One thesis is required.

[**Sociology 4** *Labor Movement.*

3 hrs.

Tuesday, Thursday and Saturday, 11:30.

This course embraces a brief survey of the conditions of labor in the nations of antiquity and in mediæval Europe. Most of the time will be given to modern labor movements in Europe, England, and America; the rise of labor organizations, strikes, boycotts, and injunctions, the sweating system, woman and child labor; wages, hours of labor, sanitary and safety devices. The labor of factories, farms, and stores will be studied to furnish concrete examples for the course. One thesis is required. Not offered in 1916-17.]

Sociology 5 *Money and Banking.*

3 hrs.

Monday, Wednesday and Friday, 11:30.

A study of the history and principles of money, including financial crises; taxation and public expenditures in the United States. The course will also deal with the theoretical and practical side of banking, with special emphasis on the state and federal laws for banking institutions.

One thesis is required.

Any student taking two courses in Sociology may be allowed to concentrate her work in writing one thesis instead of two.

Time spent in preparing the thesis in any course is reckoned as a part of time otherwise spent in daily preparation and recitation.

SPANISH

ADJUNCT-PROFESSOR SABY

Spanish 1 *Elementary Spanish.*

MUSIC

PROFESSOR DAVIS

PROFESSOR CLARK

MISS BOND

MISS REYNOLDS

PROFESSOR ADAMS

ADJUNCT-PROFESSOR SNEED

MISS WILLIAMS

MR. KLUENTER

This department is under the direct supervision of Professor Davis. Instruction, both theoretical and practical, will be given in theory, history, piano, violin, solo singing, choral and sight singing, and methods of teaching music.

ENTRANCE REQUIREMENTS.—Students must understand the rudiments of music and have some technical proficiency before the theoretical or practical courses can be taken.

Where the examination shows deficient training an introductory course will be given, but no beginner in music will be received in the department.

Students completing the course in either instrumental or vocal music will receive a Certificate of Proficiency from the Department of Music.

Each course in Theory will be credited as two hours on the A. B. degree, not exceeding, however, six hours' credit in all.

The four courses in Theory are required for completion of either instrumental or vocal courses. All students of music, instrumental or vocal, will be required to take the introductory year in Theory, unless excused after examination.

Students in the vocal course will be required to pass the examination in Piano Course 2 before certificate will be given.

Resident students who specialize in music will be required to take nine hours a week in the academic departments. A half-course in piano is offered for very advanced students whose literary studies do not leave full time for music. In music, as in other subjects, students enter the course for which they are prepared.

Examinations are given twice a year and students are advanced as rapidly as possible. Each course is designed to cover one year's time, but if a student has time for extra practice, or learns rapidly, she will be advanced at any time to the course her progress entitles her to enter; if she falls below the work required in amount or excellence, she will not be advanced until the deficiency is made up. The introductory courses are arranged for students whose training has been deficient.

Students receive both private and class lessons. Musicals and lectures will be given frequently.

For both instruction and practice only Knabe pianos are used. Thirty-four new pianos were installed in 1909. Pianos are replaced by new ones each seven years and are kept in first-class condition.

The four courses in Theory of Music are elective courses without extra charge to college students.

For terms for instrumental, vocal, and introductory theory courses see page 29.

I. Theory

PROFESSOR DAVIS

ADJUNCT-PROFESSOR SNEED

MISS WILLIAMS

An introductory course of one year is offered, and students will be required to pass a satisfactory examination before taking Course 1.

Introductory Year.

The history of notation; formation of intervals; origin and development of scales and simple harmonic chords; relationship of keys; a general survey with illustrations at keyboard of rhythm, tempo, marks of expression, use of pedals, phrasing and melodic embellishments. Twice a week throughout the year.

Course 1 *Harmony.*

2 hrs.

This course includes a thorough treatment of intervals; the principal consonant and dissonant chords in their relation to harmonic progression; modulation to related keys; the use of passing notes and suspensions; the harmonizing of a given theme, or a figured bass; practical work at keyboard and in written exercises. Twice a week throughout the year.

Course 2 *Advanced Harmony and Counterpoint.*

2 hrs.

A continuation of Course 1, with an enlarged development of dissonant combinations. Use of the pedal note, unrelated tones, and harmonic sequences as applied in harmonizing a given theme, and in original exercises. Harmonic counterpoint; harmonic accompaniment; practical work at the keyboard and in written exercises. Twice a week throughout the year. This course is open to students who have completed Course 1.

Course 3 *History of Music.*

2 hrs.

This course will give a general survey of the subject. Ancient and Greek music; the music of the early Christian Age; the development

of counterpoint and polyphonic music; the Italian, French, and German opera; the oratorio; the development of instrumental music; the great Art Forms; biographies of the great composers. Twice a week throughout the year.

This course is open to all College students, but students are advised to take Courses 1 and 2 in Theory before taking Course 3.

Course 4 *Counterpoint, Form, and Analysis.* 2 hrs.

This course is a development of work begun in Course 2, and includes more advanced work in counterpoint, with thematic, rhythmic, and harmonic analysis of compositions, by the best composers of the classic and romantic periods. Twice a week throughout the year.

This course can be taken after Course 2, but will be of greater benefit to students who also take Course 3 before beginning Course 4.

II. Pianoforte

PROFESSOR DAVIS

ADJUNCT-PROFESSOR SNEED

PROFESSOR ADAMS

MISS BOND

Students must be familiar with correct phrasing, staccato and legato touch, the ordinary signs used in music, and their application, and have some technical proficiency before Course 1 can be taken.

Course 1

Students who take this course will have technical studies to develop touch, finger and wrist action; scales and arpeggios in various forms; studies and sonatas by such composers as Czerny, Clementi, Loeschhorn, Kuhlman, or equivalents. Two lessons a week and two periods of daily practise throughout the year.

Course 2

Continued study of scales and arpeggios; studies and sonatas by Clementi, Heller, Mozart, Haydn, Mendelssohn, Bach, etc. Two lessons a week and two periods of daily practise throughout the year.

Course 3

Scales in double thirds and sixths; arpeggios, trill, and wrist studies; selections from Bach Inventions; Clementi, Cramer, and Loeschhorn studies; Mathews' Graded Studies, Beethoven Sonatas, Schubert, Schumann, Chopin, and other classic composers. Two lessons a week and two periods of daily practise throughout the year.

Course 4

This course is a perfecting of all the previous courses. More difficult technical studies will be required, and larger, more important works by the best composers will be studied. No student can complete this course until a thorough knowledge of the best music for the pianoforte has been acquired, and sufficient mastery of technique to interpret such works with intelligence. In Course 4 attention will be given to four- and eight-hand arrangements for the pianoforte of symphonies and other compositions for orchestra. Two lessons a week and two periods of daily practise throughout the year.

III. Vocal Music

PROFESSOR CLARK

MISS REYNOLDS

Instruction in singing will be given in private and class lessons. Courses are offered in solo singing and chorus practise. Students must have some knowledge of the rudiments of music and ability to read simple music before taking Course 1.

SOLO SINGING

Course 1

Lessons in correct position, breathing, and production of tone; easy solfeggios; Sieber Studies in enunciation preparatory to simple songs. Two lessons a week, and one period of daily practise throughout the year.

Course 2

Study of intervals; slow scales and arpeggios; exercises in Italian from Vaccai and Marchesi; study of ballad singing. Two lessons a week, and one period of daily practise throughout the year.

Course 3

Study of scales, arpeggios, turns, etc., in rapid movement: vocalises for style and execution; Italian, French, and German songs. Two lessons a week, and one period of daily practise throughout the year.

Course 4

Study of major and minor scales; advanced work in execution and artistic phrasing; continued study of diction and interpretation covering a wide range of songs from the best writers; study of opera and oratorio. Two lessons a week, and two periods of daily practise throughout the year.

All students who complete Course 4 must pass the examinations required in Course 2 for pianoforte playing, and such examinations as the professor of vocal music may require in sight singing and chorus practise.

CHORUS CLASS

This class is open to students who pass an examination given by the professor of singing. This work is required of all voice students who are prepared for it. The class meets for one hour every Thursday night at 7 o'clock.

IV. Violin

MR. KLUENTER

Students must have some knowledge of music before this course can be taken.

Instruction on the violin will be given in private or class lessons. A systematic course is followed. Two lessons a week and such practice as the student requires. As a rule, this course covers four years.

V. Students' Half-Course

This course is designed for piano students whose academic studies prevent their taking full work in music.

Only students very advanced in piano music will be allowed to take this course.

ART

PROFESSOR SMITH

I. History of Art

The following courses, to the amount of three hours, are credited on the A. B. degree. They are designed for all students whether endowed with artistic ability or not. There is no extra fee for tuition in any course offered in the History of Art.

History of Art 1 *General History of Art.* 2 hrs.

Section A—Wednesday and Friday, 9:50.

Section B—Wednesday and Friday, 11:30.

This course is designed to give students a general knowledge of the history of architecture, sculpture, and painting. Open to Sophomores, Juniors, Seniors, and advanced special students. Illustrated lectures, texts, and required readings.

History of Art 2 *Interiors.* 1 hr.

Section A—Wednesday, 10:40.

Section B—Thursday, 10:40.

The purpose of this course is to develop in the student a discriminating knowledge of what constitutes a good interior, and to enable her to

make practical use of such knowledge. Ancient, mediæval, and modern interiors are studied. Free discussions, assigned readings, illustrated lectures, practical work, and texts will constitute the method of instruction. Open to first-year students by permission; to Sophomores, Juniors, Seniors, and special art students without prerequisites.

History of Art 3 *French and American Art.* 2 hrs.

Section A—Thursday and Saturday, 11:30.

Section B—Thursday and Saturday, 12:20.

Open to Sophomores, Juniors, Seniors, and to advanced special students. Illustrated lectures, recitations, library work, class reports.

(a) *French Sculpture and Painting.*

Two hours a week during the first term.

(b) *American Sculpture and Painting.*

Two hours a week during the second term.

[History of Art 4 *Renaissance Italian Painting.* 1 hr.

Friday, 10:40.

This course is intended to be historical, biographical, and critical. Illustrated lectures, photographs, texts, and required readings. Open to Sophomores, Juniors, Seniors, and advanced special students. Not offered 1916-17.]

II. Practical Art

A large studio, well equipped with imported casts and objects for still-life studies, is provided for the use of students. A living model is also furnished daily without extra charge.

The composition class meets weekly, when each student submits an original drawing or painting representing her conception of the subject which has been assigned for treatment. These compositions are criticized for the benefit of all, and care is taken that the students are drilled in the principles which underlie the foundation of good pictures. Open to special art students without extra charge.

A sketch class meets weekly during the entire year, doing rapid pen or pencil sketching from life indoors during the winter and outdoors during the season suitable for such work. Art students are members of this class without extra charge. Both these classes are designed as preparatory to illustrative drawing.

Memory-sketching is used to strengthen the habit of close attention to the daily subject in hand.

Painting may be done in pastels, oils or water colors.

Modeling may be done instead of painting.

Resident students who specialize in art will be required to take nine hours a week in the academic department.

Students completing Course 6 in technical work and three hours in History of Art will receive a Certificate of Proficiency.

Students desiring to devote all their time to art may board in pleasant homes within five minutes' walk of the College and attend as Day Students.

Scholarships Offered.—Two annual scholarships to Paris, one to the Pennsylvania Academy of Fine Arts, and one to the New York School of Fine and Applied Arts are offered the students of this department. These scholarships are valued at about \$200 each.

For those seeking technical knowledge the following courses are offered. For terms, see pages 29 and 30.

For schedule see page 84.

Drawing and Painting *Introductory.*

Drawing from objects and casts. Perspective.

Drawing and Painting 1

Drawing from casts, heads, and busts; still life. Composition.

Drawing and Painting 2

Drawing from casts, full lengths, life. Comparative anatomy.

Drawing and Painting 3

Drawing heads from life; all models are in costume. Painting from still life. Composition. Sketching.

Drawing and Painting 4

This course is a continuation of Course 3.

Drawing and Painting 5 and 6

Painting from life. Composition. Outdoor sketching.

PHYSICAL EDUCATION AND HYGIENE

MISS BELDING

MISS NELSON

It is being recognized by institutions of educational and economic purport that health is not only important, but is absolutely essential to the efficient life. The "Health Habit" cannot be too early formed nor too strongly instilled. Randolph-Macon Woman's College offers an opportunity to every individual for the building up and maintenance of Health, which has been aptly defined as the harmonious working of all parts of the body to the greatest degree of efficiency.

The aims of Physical Education may be classed as follows: (1) Hygienic, (2) Recreative, (3) Remedial, (4) Educative.

The effects which we purpose to obtain in our prescribed courses are primarily (1) organic strength and power, (2) relaxation and recreation from mental pursuits, (3) correction of anatomical (spinal curvature, drooping head, etc.) and physiological (circulation, respiration, etc.) defects, (4) training of the individual to act as a social unit through the medium of mass drills and exercises, (5) poise of body and grace of movement through muscular and nervous control.

The derivative effects are development in moral stamina, a joyous buoyancy of mind, worthy appearance, and a norm of courage.

The average girl who enters college is generally below the normal in strength and undeveloped in muscular control. The majority have to some degree physical deformities, such as round shoulders, drooping head, spinal curvature, etc. In few may be seen the ease and grace of movement combined with that vigor and life that the trained muscular and nervous coördination brings about.

Each girl, upon entrance into college, has a special physical examination, in which her measurements are recorded, her strength (back, legs, lungs) tested, and general facts concerning health and hereditary tendencies solicited. The college physician also gives a careful medical examination. These two examinations furnish a guide for the direction of special exercises.

Each student is required to take three periods a week of gymnasium work and one hour of exercise in the open air daily except

on her gymnasium days. Seniors are exempt from compulsory work after completing satisfactorily the Junior work.

In order to secure uniformity, students are requested to have their gymnasium suits made here.

A systematic and progressive course for 3 years is given as follows:

First Year

Marching tactics, calisthenics, and light gymnastics, including free developing exercises, and elementary æsthetic movements (rhythmic movements of arms, legs and body), and apparatus work.

APPARATUS—Bar, Swedish boom, ropes, ladders, box, and horse.

ELEMENTARY ATHLETICS—Jumping, running, vaulting.

HYGIENE.—Talks on care of body in respect to exercises, sleep, diet, bathing, disease, etc.

Second Year

Intermediate courses in calisthenics and light gymnastics, free developing exercises, elementary wand and dumb-bell drills, æsthetic movements, field sports, and apparatus work.

FIRST AID.—Lectures on emergency treatment for sprains, fractures, drowning, cuts, bruises, etc.

Third Year

Advanced marching, fancy figures, free exercises, dumb-bells, wands, Indian clubs, advanced æsthetic movements, work on apparatus, games, and field sports.

Games

In all years gymnastic games will be taught. Such games as basketball, center-ball, volley-ball, three-deep tag relay races, field hockey, and cross ball.

Athletics

Students are encouraged to participate in all outdoor sports, such as hockey, tennis, basket-ball, and field sports. Interclass games are held annually, and also competition in field sports, because an opportunity to show skill and represent a class in athletic games, as elsewhere, is of social and moral value.

Swimming

A swimming-pool, 40 x 20 feet, is located in the gymnasium. It is supplied with running water kept at a temperature between 70° and

75°. Private lessons and the use of the natatorium are given to students for a small yearly fee.

Fencing

A course in fencing is open to advanced students and Seniors.

Corrective Gymnastics

Where marked physical deformities are observed, the student is urged to overcome these by special remedial exercises under the supervision of the Director.

THE RANDOLPH-MACON SYSTEM

THE RANDOLPH-MACON SYSTEM of Colleges and Academies comprises now five members, offering secondary and collegiate instruction to both sexes, but in separate institutions. Those for young men and boys are: (1) Randolph-Macon College, at Ashland, Va., chartered in 1830; (2) Randolph-Macon Academy, at Bedford City, Va., established in 1890; (3) Randolph-Macon Academy, at Front Royal, Va., established in 1892. Those for young women and girls are: Randolph-Macon Woman's College, at Lynchburg, Va., established in 1893; and Randolph-Macon Institute, Danville, Va., admitted 1897.

These five institutions are owned by one chartered, self-perpetuating Board of Trustees, to which public-spirited men and women have entrusted large means for the purpose of providing facilities for the education of young men and women under Christian influences. It is not sought nor desired in any of these institutions to influence the denominational preferences of students, but the officers in charge consider themselves under obligations to conform to the moral standards and religious usages of the Methodist Episcopal Church, South, under whose auspices the institutions were established. These schools and colleges are but the contribution of members of that church and of other patrons of education who have confidence in its administration of such trusts, to the uplifting of the world by means of education. The work is entirely benevolent. There are no stockholders, nor are the executive officers financially interested. The funds contributed for the purpose are applied to the best advantage for the making of strong and noble men and women, and the benefits of the facilities are open alike to all of any and every denomination; its loan-funds and scholarships are awarded to needy and worthy students without discrimination.

The organization of these separate institutions into one system is designed to secure certain definite advantages.

First, The close correlation of the courses of the **Saving Time.** Academies with those of Randolph-Macon College and of the Institute with those of the Woman's College should result in a distinct saving of time, and hence of expense, to the student. School and college working in thorough

harmony with each other, belonging to one Board, should more certainly make their work continuous and apply labor with less waste than where separate ends and ideals are proposed and independent courses are offered.

Secondly, The combination of resources resulting from the ownership of the five institutions by one Board secures abundant financial facilities, commanding the best prices and largest discounts. **Economy and Permanence.** The responsibility of the Board as a chartered corporation being undoubted, and the permanence of its general work being assured, confidence follows all its undertakings and strength is given each institution. In educational work it is especially desirable that parents and students be assured of the permanence of the institutions which they are invited to patronize and whose influence may become important to them.

Thirdly, For the preceding reasons and others which might be named, positions in the System are especially attractive, and choice teachers are at all times available for the corps of instructors. **Opportunity for Selecting Teachers.**

In most cases of teachers selected for the Academies those chosen have been for years under the instruction of our own College faculties and are known to us personally and intimately. Testimonials are proverbially of little worth, but constant and long-continued contact with the developing student enables one to select with confidence the capable teacher.

Fourthly, Experienced supervision is secured in having a Board in charge that has conducted such work for eighty years. **Experienced Supervision.**

These advantages of correlation aimed at, and to a degree at least realized in the Randolph-Macon System, are added to the individual excellences of the several institutions as presented in their respective catalogues.

The System in 1915-16 employed one hundred and twenty-eight officers and teachers and enrolled fourteen hundred and six students.

Randolph-Macon College

ASHLAND, VA.

Randolph-Macon College was founded in 1830. It is situated in Ashland, Va., thirty minutes by train from Richmond and two and a half hours from Washington, D. C. Ashland is a quiet residential town of fifteen hundred inhabitants. The style of living is not expensive, and there are few inducements to spend money.

The record of the College for healthfulness is most remarkable. There has been no death among the students for over twenty years.

The aim of the College is to do the very best academic work, and her success is attested by the high rank given her by the various boards of education. The relations that exist between Randolph-Macon College and the Schools of Law, Medicine, and Engineering are almost ideal. Her elective courses enable the student to plan his work so as best to fit him for the profession that he wishes to follow.

The students are a body of earnest young men who come to work. Fifteen to twenty per cent. of them graduate yearly. The graduates of Randolph-Macon rank with those of the best institutions of the country, as is shown by the stand they take when they go to the leading universities in this country and abroad for their post-graduate and technical courses.

The success of the students of Randolph-Macon College is largely due to the personal care and supervision they receive. The classes being small, the professors can devote more time and attention to the individual student than is possible in larger institutions. Each student is assigned to a professor who is to act as his counselor and guide and to whom he is free to go for advice at all times.

This careful personal supervision, the dormitory system, the training in physical culture, the plan of allowing students to take part in the College government, and the carefully guarded honor system, are all features that commend themselves to our patrons.

Randolph-Macon Academy

FRONT ROYAL, VA.

This school for boys and young men has closed its twenty-fourth year. On a map you will find it located near the 39th parallel, due west of Washington, D. C., in the northern end of the Shenandoah Valley. The personal commendation of teachers in the higher institutions, under whom our students have been placed, the records of these students, and the testimony of their parents, all unite in justifying the existence of this school.

The past year has been one of the most prosperous in its history. The methods which have secured the school its present standing in training students for higher institutions will be perfected from year to year.

We suggest that you come to see us. We would like for you to see what magnificent scenery the boys look out upon; what unsurpassed conditions exist; how well equipped the building is, and by what good influences the boys are surrounded.

CHAS. L. MELTON, A. M., *Principal*.

RANDOLPH-MACON ACADEMY, FRONT ROYAL, VA.

RANDOLPH-MACON INSTITUTE, DANVILLE, VA.

Randolph-Macon Institute

DANVILLE, VA.

The Institute offers the best advantages to a limited number.

The buildings are equipped with modern comforts and conveniences.

An ideal home school. The Boarding department has accommodations for one hundred students, and these are constantly associated with the fifteen members of the faculty living in the building.

The course of study meets fully the maximum College entrance requirements, and in addition offers classes that allow those young ladies, not wishing to go to College, to get a well-rounded education.

In addition to academic work, there are offered Vocal Music, Piano, Violin, Art, Expression, and Physical Culture.

The Faculty is made up of experienced teachers, full graduates of the best colleges and universities.

Rates are low for the advantages offered.

For catalogue and further information, address

CHARLES G. EVANS, *Principal*,

Danville, Va.
